The tradition of giving back to God and to the church comes from the Biblical practice of "tithing," which means to give back a tenth of our earnings to God (Numbers 18:26). A proportional giving chart is provided below to assist you in determining total commitment amount based on your annual income.

Part of our commitment as members of St. John's is giving to our Church in proportion to our income to support God's mission through the Church. If you don't already consider your giving in relation to your income, we invite you to take that step. If you already give proportionally, we invite you to consider what it might mean for you to increase the percentage in the coming year, growing toward a tithe of 10 percent and above.

Thank you for all the many ways you support our parish and for your pledge for 2024.
